

Dear [Name],

We are thrilled to extend an exclusive invitation to the Truehope live streaming of "The People vs. David & Collet Stephan." This emotionally riveting film is not just a movie, but a crucial platform to discuss and defend our rights to use natural health products and exercise medical choices in Canada. Your presence at this event is of utmost importance.

This special event will feature a live viewing and a Q&A session with David Stephan, VP of Truehope Canada, and director/writer Todd Harris.

Most of us in the industry are acutely aware of Health Canada's recent actions to categorize natural health products as pharmaceutical drugs. This could potentially devastate Canada's remarkable natural health industry. This powerful movie reveals Health Canada's endeavours to limit your health freedoms, a pressing issue that demands our immediate attention.
